IN THE SENATE OF THE UNITED STATES

JUNE 23, 2022

Mr. PADILLA (for himself and Mrs. FEINSTEIN) introduced the following bill; which was read twice and referred to the Committee on Banking, Housing, and Urban Affairs

A BILL

To help persons in the United States experiencing homelessness and significant behavioral health issues, including substance use disorders, by authorizing a grant program within the Department of Housing and Urban Development to assist State and local governments, Continuums of Care, community-based organizations that administer both health and homelessness services, and providers of services to people experiencing homelessness, better coordinate health care and homelessness services, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Coordinating Sub-
5 stance Use and Homelessness Care Act of 2022”.

6 **SEC. 2. FINDINGS.**

7 Congress finds the following:

8 (1) The United States has a homelessness cri-
9 sis, with more than 580,000 people experiencing
10 homelessness on a single night according to the De-
11 partment of Housing and Urban Development’s
12 2020 Annual Homeless Assessment Report to Con-
13 gress.

14 (2) While the lack of affordable housing is the
15 primary driver of homelessness, behavioral health
16 conditions, including substance use disorders, can
17 exacerbate homelessness and can also be a con-
18 sequence of homelessness.

19 (3) Research shows that people experiencing
20 homelessness have higher rates of substance use dis-
21 order than people with housing stability. Some peo-
22 ple who experience homelessness use substances to
23 cope with the trauma and deprivations of their cir-
24 cumstances, but substance use disorders frequently

1 make it more difficult for people experiencing home-
2 lessness to secure permanent housing.

3 (4) Many individuals with substance use dis-
4 order who experience homelessness have co-occurring
5 illnesses. The combined effect of physical illness,
6 mental illness, and lack of housing results in higher
7 mortality rates for individuals experiencing home-
8 lessness.

9 (5) Safely and securely housing individuals who
10 are experiencing both homelessness and behavioral
11 health issues, including substance use disorders,
12 often requires supportive services and close coordina-
13 tion between housing and social service providers, in
14 addition to low-barrier, affordable housing. Sub-
15 sidized housing is critical, but not enough—access to
16 additional voluntary person-centered supportive serv-
17 ices is needed.

18 (6) Nevertheless, it is imperative that when
19 people experiencing homelessness, including those
20 with a behavioral health condition such as substance
21 use disorder, choose to seek help that housing as
22 well as health care and person-centered supportive
23 services be coordinated, particularly given their
24 acute needs and the significant costs incurred by

1 communities for law enforcement, correctional, and
2 emergency department care for failing to do so.

3 (7) Providing access to health care and vol-
4 untary person-centered supportive services can be
5 beneficial in securing and successfully maintaining
6 stable housing.

7 (8) Integration of health and homelessness serv-
8 ices to achieve optimal outcomes for people experi-
9 encing homelessness, significant behavioral health
10 conditions such as substance use disorder, and other
11 health conditions can be challenging for State and
12 local governments, continuums of care, and commu-
13 nity-based organizations that administer both health
14 and homelessness services and providers of homeless-
15 ness services.

16 (9) Capacity-building is needed to create sys-
17 tems-level linkages between the 2 sets of services to
18 allow for smoother pathways and simpler navigation.

19 (10) Black, Hispanic, and Indigenous people
20 are disproportionately underserved by person-cen-
21 tered supportive services. In order to address critical
22 services deficits and affirmatively serve protected
23 classes of people with significant behavioral health
24 conditions, including substance use disorders, who
25 are experiencing homelessness, the grant program

1 established under this Act can be used to build the
2 capacities of homelessness services providers that
3 have demonstrated cultural competencies in service
4 provision and a record of serving Black, Hispanic,
5 and Indigenous people and other underserved popu-
6 lations experiencing homelessness that also suffer
7 from substance use disorders.
